

COVID-19 DECISION TREE

IF YOU HAVE RECENT ONSET OF COVID-19 SYMPTOMS:

- Fever of 100.4 or more
- Shortness of breath or difficulty breathing
- New onset of cough not attributable to or different from chronic allergic/asthmatic cough
- Loss of taste or smell
- Diarrhea, nausea, vomiting, chills, muscle or body aches, headache, fatigue, sore throat, congestion, or runny nose not attributable to known causes.

STAY HOME

- Consult your healthcare provider AND
- Seek a COVID-19 PCR test or a rapid antigen test AND
- Stay home for 5 days after date of exposure or onset of symptoms AND
- Until fever-free for 24 hours without using fever-reducing medication AND
- Until symptoms are improving

AND

- Wear a mask at all times except when eating or actively participating in athletics.

AND

IF YOU HAVE A POSITIVE COVID-19 TEST:

STAY HOME (ISOLATE)

- For 5 days from first symptom or, if asymptomatic, first positive test AND
- Until fever-free for 24 hours without the use of fever-reducing medication AND
- Until symptoms have significantly improved

AND

- Consult your healthcare provider AND
- Inform close contacts* you have tested positive for COVID-19 AND
- Wear a mask when around others on days 6 through 10.
